

Week		September 6, 2021	September 10, 2021
Monday		Thursday	
HOLIDAY		TEK: 8.2E, 8.3B, 8.4A, 8.5B-C TLW tie valence electrons to the location of elements on the periodic table. TLW distinguish between groups (families) and periods and explain what each tells about an atom of those elements	
Tuesday		Friday	
TEK: 8.2C, 8.2E, 8.3B, 8.3C, 8.5A-B TLW test over reactivity, identity and structure in atoms. GRADED ASSIGNMENT		TEKS: 8.2E, 8.3B, 8.4A, 8.5B-C TLW: use Bohr models to recognize trends on the periodic table related to energy levels, valence electrons, and reactivity. GRADED ASSIGNMENT	
Wednesday		Saturday	
TEK: 8.5C TLW take guided notes over a video showing periodic table relationships.		GRADED: WEEKLY WARM-UP
