

Week 21	January 24-28, 2022
----------------	---------------------

<p>Monday</p> <p>TEKS: A.2D TLW: Write and solve problems involving direct variation</p>	<p>Thursday</p> <p>TEKS: A.3C TLW: graph linear functions on the coordinate plane and identify key features, including x & y intercepts, zeroes, slope, in mathematical and real world situations</p>
<p>Tuesday</p> <p>TEKS: A.3C TLW: intro. to linear equations – basic concepts</p>	<p>Friday</p> <p>TEKS: A.3C TLW: find the x & y intercepts of linear equations</p>
<p>Wednesday</p> <p>TEKS: A.3C TLW: convert equations from standard form to $y=$ and from $y=$ to standard form</p>	<p>Saturday</p>
