

Prairie Harbor Campus Improvement Plan

Brazos ISD

2016-2017

Brazos ISD Vision and Goals

District Vision: Brazos ISD inspires each student to become a productive citizen who demonstrates leadership, passion, and self-reliability. We foster a culture of respect, community, perseverance, and achievement.

Mission Statement: Prairie Harbor's mission is to provide a safe and positive learning environment that equips our students with a foundation for becoming productive members of our society. We work toward our goal to help students discover their potential and maximize social-emotional-behavioral growth and awareness. We are focused on encouraging students to fulfill graduation requirements in an accelerated, academic, and technological environment which will be accomplished by students, faculty, staff, and home working together towards student success.

Campus Needs Assessment: This is the second year of Prairie Harbor Alternative School providing educational services for Prairie Harbor Residential Treatment Facility residents. PHRTF is a residential facility for girls with social emotional and behavioral disorders and challenges placed through DFPS. This year, we will expand our devotion to creating a school wide culture of care and providing students a safe and supportive environment so they may identify post-secondary goals and take academic risks in reaching those goals. The majority of our students have tremendous challenges in academic settings due to the lack of continuity they have experienced as well as their intense emotional struggles. Approximately two-thirds of our student body receive special education services and function well below grade level. All of our students demonstrate difficulty maintaining focus on academics due to social emotional and behavioral needs. We offer a multi-tiered system of support to address unique student needs. It is our goal to maintain a climate where all students will increase their academic skills, self-esteem and self-determination, as well as their abilities to think critically. We offer various credit recovery and remediation opportunities to address student needs resulting from their transient lifestyle. We provide continuity and opportunity through a computer based curriculum as well as teacher led instructional experiences.
