

BRAZOS INDEPENDENT SCHOOL DISTRICT SPECIAL EDUCATION OPERATING PROCEDURES: TRAUMATIC BRAIN INJURY

Brazos ISD Board Policy along with these *Special Education Operating Procedures* constitute the Policies and Procedures of Brazos ISD, designed to be consistent with the State policies and procedures developed pursuant to the IDEA. Brazos ISD *Special Education Operating Procedures* are not to be for the purpose of creating a requirement that is not otherwise imposed by the Individuals with Disabilities Education Improvement Act (“IDEA”), together with its implementing federal regulations, state statutes and rules, as they shall from time to time be amended, and shall not be construed to create a higher standard than that established by IDEA. These *Special Education Operating Procedures* will be posted on Brazos ISD’s website. These *Special Education Operating Procedures* should be interpreted consistent with the IDEA. Brazos ISD’s *Special Education Operating Procedures* are reviewed and updated, as needed, on at least an annual basis. Brazos ISD will make timely changes to policies and procedures in response to IDEA amendments, regulatory or rule changes, changes to state policy, or new legal interpretation as are necessary to bring Brazos ISD into compliance with the requirements of IDEA. Brazos ISD maintains systems to ensure that all students with disabilities residing in the District, including students with disabilities attending non-public schools, regardless of the severity of their disabilities, and who are in need of special education and related services, are identified, located, and evaluated and provided a free appropriate public education. Brazos ISD maintains systems to ensure that students with disabilities and their parents are afforded the procedural safeguards required under the IDEA (and its implementing federal regulations, state statutes and rules) including with respect to the confidentiality of records and personally identifiable information.

TRAUMATIC BRAIN INJURY

Students with traumatic brain injury have acquired injury to the brain caused by an external physical force, resulting in total or partial functional disability or psychosocial impairment, or both, that adversely affects educational performance. The term applies to open or closed head injuries resulting in impairments in one or more areas, such as cognition; language; memory; attention; reasoning; abstract thinking; judgment; problem-solving; sensory, perceptual, and motor abilities; psychosocial behavior; physical functions; information processing; and speech. The term does not apply to injuries that are congenital or degenerative, or to brain injuries induced by birth trauma.¹

The group of qualified professionals that collects or reviews evaluation data in connection with the determination of a student's eligibility based on a traumatic brain injury must include a licensed physician, in addition to—

- a licensed specialist in school psychology (LSSP)²
- an educational diagnostician, or

¹ 34 C.F.R. § 300.8(c)(12)

² 22 TEX. ADMIN. CODE § 465.38(b)(1)

- other appropriately certified or licensed practitioner with experience and training in the area of the disability.³

“Medical services” under IDEA are defined as services provided by a licensed physician to determine whether a child has a medically related disabling condition, which results in the child's need for special education and related services.⁴ The District will ensure that such services are at no cost to the parent.⁵

The group of qualified professionals conducting an evaluation of a student suspected of having a traumatic brain injury will conduct assessments and observations, and collect data, as necessary for the ARD Committee to make an eligibility determination.

PRACTICE GUIDE—When evaluating a student suspected of having a traumatic brain injury, the group of qualified professionals conducting the evaluation may consider additional components such as an assistive technology assessment and reports prepared by private providers. If appropriate to understand private evaluation reports, their recommendations or conclusions, the District may seek the parent’s or guardian’s consent to release and exchange confidential information with the private provider. The District may consider seeking consent for medical evaluation at District expense by professionals selected by the District, if necessary, to understand a student’s eligibility for special education and unique disability-related needs. Recommendations in the evaluation report should be based upon the student’s unique needs rather than the area of eligibility.

FOR MORE INFORMATION

In Texas, eligibility is determined by the student’s Admission, Review and Dismissal (ARD) committee.⁶ The phrase *multidisciplinary team* refers to the group of District staff tasked with using a variety of assessment tools and strategies to gather relevant functional, academic and developmental information about the student, including information provided by the parent, as part of the special education evaluation process.⁷ For more information, please contact Katherine Allison.

Demonstrations of this procedure’s implementation may include, but are not limited to, examples such as:

- Multi-Tiered Systems of Support or Response to Intervention Data

³ 19 TEX. ADMIN. CODE § 89.1040(c)(11)

⁴ 34 C.F.R. § 300.34(c)(5)

⁵ *Letter to Anonymous* (OSEP 6/3/2020)

⁶ 19 TEX. ADMIN. CODE § 89.1040(b); 19 TEX. ADMIN. CODE § 89.1050(a)(5)

⁷ 34 C.F.R. § 300.306

- Student specific data collection and monitoring
- Observation data
- Evaluation reports
- Collection of information from parents and independent service providers
- ARD committee reports
