Comprehensive Needs Assessment

Student Learning

Student Learning Summary

Student academic achievement data is disaggregated after each state assessment and is accessible to campus and district administration. The district improvement committee reviewed the 2019 and December 2020 and available 2021-2022 data to look for trends and areas of need. Campus benchmarks and TELPAS results were also reviewed. Data showed that the district is doing well compared to the state after COVID. In the summer the leadership team met and reviewed the Spring STAAR results. The district was above the state in all grade levels and subjects except for 3rd grade reading and math. Scores were discussed in detail to discover the root problems as well as the foundational skills, process and procedures in place that are maintaining success.

Student Learning Strengths

December retesters did exceptionally well compared to scores in prior years. This was a result of a more effective tutorial plan and program. Spring scores demonstrate success in many areas. ALG and 5th grade math scores were exceptional. High school Biology and US History are having continued success. ENG I and II EOCS are making slow and steady progress.

CTE PROGRAM: The high school CTE program has increased the amount of IBC's offered. For the 22-23 school year students completed and were successful in Floral, Welding and Microsoft certifications. The school day SAT was also offered for the first time for all juniors and select seniors.

Problem Statements Identifying Student Learning Needs

Problem Statement 1: There is a need to expand CCMR opportunities for all students. **Root Cause:** lack of funding of students to participate in Dual Credit Courses.

Problem Statement 2: Students receiving special education services perform lower than the district on state assessments. **Root Cause:** Students are in resource with teachers that are not certified in the subject area of the tested subject. Students are missing the instructional part of the lesson because they are pulled from the class for intervention.
