

Brazos ISD
Child Nutrition
Charge Policy
2022-2023 School Year

Students at all campus levels will be allowed to charge up to three (3) meals with a maximum dollar amount of \$10.00. The child nutrition department will notify parents in a letter stating their child's account is at a low dollar amount and funds need to be posted to the account. The child nutrition department will also notify parents in a letter stating their child has charged meals and a negative dollar amount will reflect in this notification. Once notification of meal account balances are sent home, families will have 10 business days to pay off the negative balance. After 10 days, further action from the child nutrition department will follow via phone call and/or certified notification to family with outstanding debt. Parents/Guardians can make payments online through the districts website via Lunch Money Now, send check or cash to your child's campus. Brazos ISD encourages all families who may qualify for free/reduced benefits to fill out the free/reduced lunch application, which are available at all campuses. For applications contact your child's campus or contact Sheila Moseley, Child Nutrition Director at 979-478-6006.

If a student has a negative amount on their account, they will not be allowed to purchase extras or ala carte items until the meal charges are paid in full.
